# ORIGAMI TO ASTONISH AND AMUSE

Imagine origami Nail Clippers  
that actually work or a  
Swiss Army Knife that actually  
opens or a Surfer on a Wave  
that crashes when the surfer is  
slid forward. There's no need  
to imagine -- This is for real!

"All I can say is wow! It's fascinating."  
"A mad genius. Museum quality work... Insane.  
A reminder that craft and inventiveness for their  
own sake still flourish, at least in hands like yours."  
"Your work has made me happy just to see it. It's  
brilliant and funny and awesome and I'm so glad  
you're doing this origami. Thank you, for us all."
